

Biography - Brian McIntyre IALD, MIES

Brian McIntyre is Principal and Co-owner of FLUX Studio Ltd. which specializes in the combined disciplines of design, engineering and art for the illumination of architecture. In 2014, McIntyre pursued a goal of design autonomy and business ownership when he and Co-owner Glenn Shrum agreed to fuse textured experiences and complementary skills to deliver full service architectural lighting design and daylight design to meet a demand in an integral design field.

Before merging with FLUX Studio, McIntyre was a Senior Designer and Project Manager for the lighting design office of George Sexton Associates (GSA). There he primarily focused on world class art museums including such projects as the Milwaukee Art Museum with Santiago Calatrava, The Museum of Modern Art with Taniguchi and Associates, the Neue Galerie with Selldorf Architects, the Denver Art Museum with Daniel Libeskind, the Anchorage Museum with David Chipperfield Architects, the Museum of Fine Arts Boston with Foster and Partners, the Philadelphia Museum of Art - Perelman Building with Gluckman Maynor Architects, the National Gallery of Australia with PTW Architects and the Art Institute of Chicago with WHY Architecture. In addition to museum lighting, his experience includes numerous building types such as the Hearst Tower in NYC with Foster and Partners, The Modern restaurant in NYC with Bentel and Bentel, the Herz Jesu Kirche in Munich, Germany with Almann Sattler Wappner and many private residences. The full list of projects is noted within McIntyre's résumé.

Prior to moving to Washington DC, McIntyre was an intern engineer in Chicago, Illinois concentrating on electrical power distribution and illumination designs for commercial and multi-unit residential projects. Brian holds a Bachelor of Science degree from the University of Kansas in Architectural Engineering with an emphasis in illumination engineering and architectural design.

FLUX Studio has staff in Washington DC, Baltimore and New York City but services clients nationally.
